**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I understand that the Commission is considering action on the Bridge 2 Broadband capability that my ISP currently uses through ATT. This is a superior service that my ISP (Sonic.net) offers compared to ATT in terms of cost, capability, and, most importantly for me, a technical consultant, to have that I feel only my ISP can offer at a fair price and excellent service. I know because I tried ATT with disastrous results.

Terminating the Bridge 2 Broadband capability will affect my consulting business of am forced to accept inferior service at an elevated price compared to what I receive from my excellent local ISP provider.

I also use telephone service from my ISP. If I loose my local ISP service it will cost me even more money to obtain telephone service from another provider.

We need good local competitors to the large companies that cannot and do not offer superior service.
